## SAFETY INFORMATION & WARNINGS

When using any electrical appliance, basic safety precautions must be followed in order to reduce the risk of fire, electrical shock and/or injury to persons or property. Be sure to read all instructions before using this appliance and observe the following safety tips:

### **Shock Hazard – Electrical Grounding Required**

- Never attempt to repair or perform maintenance on the unit until the electricity has been disconnected.
- Never remove the round grounding prong from the plug and never use a two-prong grounding adaptor.
- Altering or cutting of power cord, removal of power cord, removal of power plug, or direct wiring can cause serious injury, fire, and loss of property and/or life, and will void the warranty.
- Never use an extension cord to connect power to the unit.
- Avoid operating this cooler in excessively moist or humid environments.

### **Important Precautions:**

- Do not lift unit by door handle.
- Be sure the kick-plate on the front bottom is free of obstruction. Obstructing airflow can cause the unit to malfunction and will void the warranty.
- Failure to clean the condenser every six months can cause the unit to malfunction.
- Allow unit temperature to stabilize for 24 hours before use.
- Do not block any internal fans.
- Keep the cooler away from hazardous materials or combustible/flammable substances.
- Use only genuine supplier's replacement parts. Imitation parts can damage the unit, affect its operation or performance, and may void the warranty.

**Child Entrapment Risk:** To avoid the risk of child entrapment, do not allow children to operate, play with, or crawl inside the unit. If the unit will not be used for an extended period of time, remove the door and leave the shelves in place so that children cannot crawl inside. Also remove the door when disposing of the unit.

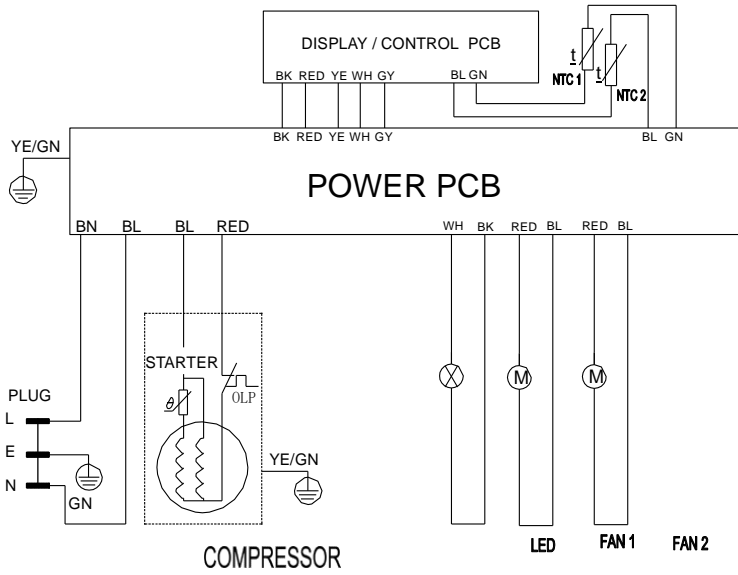

## PARTS LIST

1.	Drip Tray
2.	Compressor
3.	Power Cord
4.	Plug of Door Hinge
5.	Upper Door Hinge
6.	Cover of Door Pivot
7.	Sensor
8.	Cooling Fan
9.	Top Light Board
10.	Cover of Top Light Board
11.	Display Board
12.	Control Box
13.	Sticker of Control Box
14.	FlipShelf™
15.	Door Gasket

16.	Door
17.	Handle
18.	Lower Hinge
19.	Fixed Plate for Door Hinge Pivot
20.	Tapped Plate for Lower Hinge
21.	Kick Plate
22.	Support Plate for Foot
23.	Foot
24.	Cabinet
25.	Base of Power Control Board
26.	Power Control Board
27.	Box for Power Control Board
28.	Mask for Outer Fan
29.	Outer Fan
30.	Based Plate of Compressor

# ELECTRICAL CIRCUIT DIAGRAM

## INSTALLATION

**Before connecting the appliance to a power source, let it stand upright for approximately 2 hours.** This will reduce the possibility of a malfunction in the cooling system from handling during transportation.

Before operating your cooler for the first time, follow these steps:

- Remove the exterior and interior packing.
- Clean the interior surface of the unit with lukewarm water and a soft cloth.
- Place the cooler on a level surface that will be strong enough to support the unit when it is fully loaded. To level your cooler, adjust the front feet located at the bottom of the unit.

---

## ADDITIONAL NOTES

- The appliance should not be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience.
- Children should not play with the appliance. Cleaning and user maintenance should be performed under adult supervision.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a safety hazard.
- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not use mechanical devices or means other than those recommended by the manufacturer to accelerate the defrosting process.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances other than those recommended by the manufacturer inside the storage compartments of the appliance.
- Do not store explosive substances such as aerosol cans with a flammable propellant in the appliance.
- This appliance is intended for use only in the household, office and similar environments.

## OPERATING INSTRUCTIONS

### HOW TO USE THE BUTTONS ON THE DISPLAY PANEL

Raise the desired temperature. \*

Lower the desired temperature. \*

\* To set the temperature, press the UP or DOWN button on the control panel. The interior temperature can be adjusted in increments of one degree between 37°F and 65°F (3° - 18°C).

The interior light can be turned on or off by pressing the "Light" button.

### HOW TO USE THE FLIPSHELF™ SHELVES

This beverage fridge comes with 4 adjustable flip shelves that allow you to optimally store all types of beverages. The shelves come with two sides: a flat side for beer or beverages and a wine side for standard and large wine or champagne bottles. To flip a shelf, follow these instructions:

1. Press down on the front of a shelf until the back of the shelf releases from the security nook and raises upwards, then pull the shelf out.
2. Flip the shelf.
3. Slide the shelf back into place.

#### **Flat side**

Use the flat side to stand beverages, beer cans or bottles, or growlers upright. The sturdy surface keeps cans and bottles from tipping over.

#### **Wine side**

Use the wine side to securely hold bottles in place. The grooves keep the bottles from rolling around and knocking over the other beverages in your beverage fridge.

## CLEANING & MAINTENANCE

### CLEANING YOUR BEVERAGE FRIDGE

To clean your beverage fridge:

- Unplug the beverage fridge and remove anything inside.
- Wash the inside of the unit with a solution made of warm water and baking soda solution (2 tablespoons of baking soda to one quart of water).
- Unscrew the water reservoir at the bottom of the unit and rinse with water.
- To clean the outside of the unit, use a mild detergent and warm water.

### MOVING YOUR BEVERAGE FRIDGE

To move your beverage fridge:

- Remove anything stored inside.
- Securely tape down all loose parts located inside the unit.
- Turn the leveling feet up to the base in order to avoid damage.
- Tape the door shut.
- Be sure the beverage fridge stays in an upright position during transportation.

## TROUBLESHOOTING

<b>Problem</b>	<b>Possible Causes</b>	<b>Solution</b>
<b>Beverage fridge does not operate.</b>	The unit may be plugged in using a different voltage.	Check if using the wrong voltage.
	The circuit breaker may be tripped or there is a blown fuse.	Reset the circuit breaker or check for a broken fuse.
<b>Beverage fridge is not cold enough.</b>	The external environment may require a higher setting.	Lower the temperature of the beverage fridge.
	The door may be opened too frequently.	Open the door less frequently.
	The door is not closed completely.	Make sure the door is closed securely.
	The door seal does not seal properly.	Replace the seal on the door. Replacements can be acquired from the manufacturer.
	The front grille is obstructed.	Make sure nothing is blocking the front grille.
<b>The light does not work.</b>	There may be a problem with the display board.	Contact the manufacturer.
<b>The beverage fridge vibrates while operating.</b>	The unit is not sitting on a level floor, or the unit's feet are not correctly installed.	Make sure the unit's feet are in the proper position and tightened securely.
<b>The beverage fridge produces a lot of noise.</b>	The unit is not leveled.	See above.
	The fan may be obstructed.	Check the fan to make sure there is no debris or obstruction. If not, contact the manufacturer.
<b>The door will not close properly.</b>	The unit is not leveled.	See above.

<b>Problem</b>	<b>Possible Causes</b>	<b>Solution</b>
	The door is not properly installed.	Check the door hinges to make sure they are properly installed.
	The seal is weak.	Replace the seal on the door. Replacements can be acquired from the manufacturer.
	The shelves are out of position.	Make sure the shelves slide all the way into the unit.
<b>The LED display does not work.</b>	There may be a problem with the main control board.	Contact the manufacturer.
	There is a problem with the plug.	Contact the manufacturer.
<b>There is an LED display error, or the LED displays "LO".</b>	The cooling kit is no longer working properly.	Contact the manufacturer.
	The PC Board is faulty.	Contact the manufacturer.
<b>The buttons do not function.</b>	The temperature control panel may be damaged.	Contact the manufacturer.

## LIMITED MANUFACTURER'S WARRANTY

This appliance is covered by a limited manufacturer's warranty. For one year from the original date of purchase, the manufacturer will repair or replace any parts of this appliance that prove to be defective in materials and workmanship, provided the appliance has been used under normal operating conditions as intended by the manufacturer.

### **Warranty Terms:**

During the first year, any components of this appliance found to be defective due to materials or workmanship will be repaired or replaced, at the manufacturer's discretion, at no charge to the original purchaser. The purchaser will be responsible for any removal or transportation costs.

### **Warranty Exclusions:**

The warranty will not apply if damage is caused by any of the following:

- Power failure
- Damage in transit or when moving the appliance
- Improper power supply such as low voltage, defective household wiring or inadequate fuses
- Accident, alteration, misuse or abuse of the appliance such as using non-approved accessories, inadequate air circulation in the room or abnormal operating conditions (extreme temperatures)
- Use in commercial or industrial applications
- Fire, water damage, theft, war, riot, hostility or acts of God such as hurricanes, floods, etc.
- Use of force or damage caused by external influences
- Partially or completely dismantled appliances
- Excess wear and tear by the user

### **Obtaining Service:**

When making a warranty claim, please have the original bill of purchase with the purchase date available. Once confirmed that your appliance is eligible for warranty service, all repairs will be performed by a NewAir™ authorized repair facility. The purchaser will be responsible for any removal or transportation costs. Replacement parts and/or units will be new, re-manufactured or refurbished and is subject to the manufacturer's discretion. For technical support and warranty service, please email [support@newair.com](mailto:support@newair.com)
