| REF | QTY | DESCRIPTION         |
|-----|-----|---------------------|
| A   | 1   | Grill Box           |
| B   | 1   | Top Post Section    |
| C   | 1   | Bottom Post Section |

# ASSEMBLY

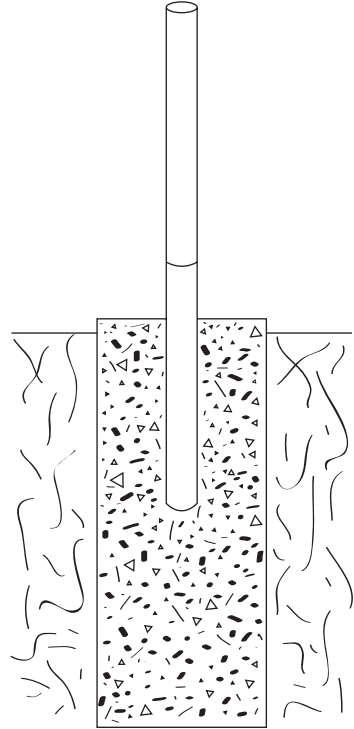

## STEP 1

Remove the plastic cap from the bottom post section [C]. Screw the top post section [B] onto the bottom post section.

## STEP 2

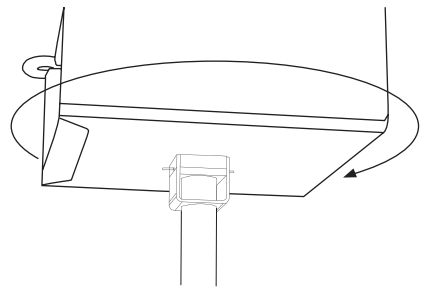

Using a post hole digger, make a hole in the ground that is a minimum of 12" (30.5 cm) in diameter and 36" (91.5 cm) deep. Fill the hole with concrete. Insert the assembled post into the concrete with the top end 26" (66 cm) above ground level and plumb the post vertically. Allow the concrete to cure before installing the grill box.

NOTE: Local soil conditions may require a larger footing.

## STEP 3

Align the holes in the swivel mechanism of the grill box over the holes in the top of the post. Insert the locking pin through the holes, leaving an equal length of pin protruding from each side of the swivel mechanism. Rotate the grill box one complete revolution. The locking pin will be bent and drawn into the swivel mechanism to lock the grill box onto the post.
